Our story

Alison Brown & Julia Wyatt set-up their business from home in 1993 and soon realised that they would need larger premises. In 1996 the family built their first factory which was perfect for their growing business.

The business grew each year with new contracts and again needed to expand so in 2007 we moved to King Alfred Business Centre. We have twice since enlarged our premises with a purpose built floor for stock and also for additional office space.
